Jackson and Hazard, rival boom towns of the mountains, are both fifthclass cities. They thought they were in the fourth class. Now they want to know why Senator C. D. Arnett was in Frankfort inquiring about it. He and Senator Brock had tacked an amendment on Representative John C Duffy's bill, making Hopkinsville a third-class city, which raised, so they understood, Jackson and Hazard from the sixth to the fourth class. The enrolled bill, signed by the presiding officers of the two houses and the governor, puts them in the fifth class, and that is the law. Jackson and Hazard both are growing rapidly and are in adjoining counties and the same coal field, and located on the same railroad to have engendered great rivalry. Each was desirous of flaunting its gain in population by getting into the biggest class its population would permit. Their representatives watched each other like hawks throughout the recent session, each fearful lest the other town should get into a higher class than his own. The result was an agreement, it is stated, that both cities should become fourth class.

Easter is the queen of festivals. It is the commemoration of a supreme historic fact, the revelation of a supreme religious preme spiritual consolation, the force of a supreme moral motive. Of Christ's resurrection the apostles, the early disciples, were witnesses. His death upon the cross had filled them with anguish and despair. But when the news on that first bright Easter morning spread from lip to lip, "The Lord hath risen, indeed, and appeared unto Peter," then was their sorrow turned into a rapture of joy. The tumultuous notes of that great Easter chorale have rolled through all after ages their unspeakable gladness. That resurrection, that triumph over death, has changed all the destinies and brightened all the life of mankind throughout the world during the nineteen centuries which since have passed.-Dean ******************

one looks away back to antiquity, for the hare or rabbit has had unusual significance to many peoples. In ancient mythology the hare's con-

nection with the moon was well established. Hindu tradition tells us that while Indra was dying of hunger the hare threw himself into the fire in order that the god might be provided with a meal.

For this sacrifice he was translated to the moon by the grateful Indra. In Buddhist legend we again find him sacrificing himself in order to provide food for the hungry. Here again he was translated to the moon, where the Hindus, Japanese and Chinese still affect to see him in the well known spots on

Freyja has also been identified with the Anglian goddess Eostre or Ostara, from whose name we derive our present term of Easter.

Easter Day In the Churches

Easter day is pre-eminently a day for churchgoing. Three hundred million people, it is estimated, throng the churches throughout the world on Easter, bending the knee in homage before the King of kings.

The Easter festival is one of the most beautiful in the church calendar, a festival in which flowers and exquisite music play important parts.

Easter is the harbinger of spring, the glorious season of hope, of revivified life, presaging the immortality of which man in his philosophic moments has a vague perception.

Let this Easter day bring you into communion with that great church which God established for the redemption of the world.

Go to church on Easter and hear in anthem and sermon that marvelous story of the resurrection. Who knows? By that very act of attending the house of worship you may resurrect in your own soul the latent God hunger which, when it fills one's life, transforms him into a man of wondrous power.

Go to church on Easter day and behold the flower laden chancels, the gorgeous varicolored blooms of spring, so beautiful to the human vision after the sterile winter.

Go listen to the exquisite music, the sacred compositions of many of the world's masters of harmony, which the choirs will render for your edification.

Easter day in church will appeal to all that is noblest and best in you. Go to church and partake of that spiritual uplift for which your soul yearns.

Easter Is Older Than Christianity ‡

cient Saxon goddess of spring, Easter or Eostre. The Anglo-Saxon name for April is Easter month. Taking advantage of the coincidence of the Christian festival in point of time with that of the yearly feast in honor of the Saxon goddess, the early missionaries gave a Christian meaning to the observance of the day, but it has ever retained its ancient name. Easter was at one time called the Christian passover, because the Jewish passover occurs about the same date, and the early converts from Judaism celebrated Easter and the passover as one festival.

"The primitive Christians," we are told, "when they met on this day saluted each other with the words, 'Christ is arisen,' to which answer was made, 'Christ is arisen, indeed, and hath appeared unto Simon." This custom is still observed in the Greek church. "Indeed," to quote a foreign writer, "all the ceremonies attending the observance of Easter were at first exceedingly simple, but in the early part of the fourth century a decided change was brought about.

"Constantine, naturally vain and fond of parade, signalized his love of, display by celebrating this festival with extraordinary pomp. Vigils or night watches were instituted on Easter eve, at which people remained in the churches until midnight. The tapers, which it was customary to burn at this time, did not satisfy his majesty, but huge pillars of wax were used instead, and not only in the churches, but all over the city, were they placed so that their brilliancy at night should rival the light of day.

"Easter Sunday was observed with most elaborate ceremonies, the pope officiating at mass, with every imposing accessory that could be devised." Not kneeling in token of humility, but standing erect with arms outstretched and faces looking to heaven to express triumphant peace, the early Christians prayed during the fifty days between Easter and Pentecost, and no songs but those of joy and gratitude were heard. Between Easter and Pentecost the time was considered the most auspicious in the whole year for lovemaking and marriages, and those two holy days were the best on which to baptize children.

Of all the Easter customs, that of coloring and making presents of eggs seems the only distinctive one that has found a place in our time and country.

LESSON FOR APRIL 12

THE JOURNEY TO EMMAUS.

LESSON TEXT-Luke 24:13-35. condemn? It is Christ Jesus that died, yea rather, that was raised from the dead, who is at the right hand of God, who also maketh intercession for us. Rem. 8:34.

We turn aside today to consider as the Easter lesson a well-known event in connection with the several appear ances of our Lord after his resurrection; one of the many infallible proofs, Acts 1:3; I Cor. 15:4. The narrative of this journey is one of the most beautiful post-resurrection stories, simple, clear and of great value. It is related, evidently, by an eye witness. The Cleopas mentioned is not the son of Mary, John 19:25. The name of the second pilgrim is but a conjecture, though we somehow feel it was Luke himself. The journey was about seven and one-half miles and most likely they were returning to their homes after the Passover. Somewhere on the way a stranger joined them who asked the nature of their conversation, and the cause of their evident sadness (v. 17). In astonishment, Cleopas answers, but the stranger continues and adroitly draws out their entire story.

Interesting Progression. 1. Their Disappointment, vv. 13-24. It is all too evident that they did not expect a resurrection and that, filled with perplexity and discouragement they were on the verge of despair. It is interesting in this lesson to observe the progression (1) "and they talked" v. 14; (2) "and they found not," v. 23; (3) "and they saw not," v. 24; (4) "and they constrained him," v. 29; (5) "and they knew him," v. 31; (6) "and they said is risen," vv. 32, 34; (7) "and they told," v. 34. As they "talked" it was revealed that their loving hearts were to talk is often the only way to find

relief from the gnawing of grief. There seem (v. 15 R. V.) to have Christianity. The very name which death has no power. Are we willing he should have part in our every conversation? Continuing they told the amazing tale related by the women and, moreover that their statement of an empty tomb had been verified by certain women who had gone to investigate, but, in conclusion, they again reverted to their sadness by

> saying "They found his body." Cause of Sadness.

11. His Appointment, vv. 25-35. Evidently the journey was continued and he gently rebukes them for their slowness of heart to believe the record of their own prophets. All sadness, practically, arises from unbelief in the Word of God, Phil. 4:6, 7; Rom. 8:28-32. He interpreted to them the true Messianic teaching of their own scriptures. He charges them with folly not to believe "all" of the record (v. 25). ******* THE MEANING OF

THE RESURRECTION. By CARDINAL GIBBONS. The resurrection of Christ is the most signal and splendid evidence of his divinity. It is

the keystone in the arch of faith,

as it is the most brilliant luminary in the constellation of Christian festivals. A certain religious enthusiast named Leberaux once submitted to Talleyrand a project he entertained of founding a new religion and asked the French statesman's views as to the feasibility of the undertaking. "You will certainly succeed," replied Talleyrand, "and your name will go down with glory to posterity if you fulfill the con-ditions which I propose." "And what are they?" eagerly inquired the visitor. "You must first suffer, be scourged and cruoffied and then rise on the third day. Do this and your success is assured." Thoughts for Easter

Because he lived this world begins to live today, and of its spiritual birth this day is the anniversary .-- Edward Everett Hale.

A legend of the Greek church tells us that our Lord used to feed the robins round his mother's door when he was a boy; moreover, that the robin never left the sepulcher till the resurrection and at the ascension joined in the angels' song.

Across the sea the light brought joy to many a ship, and, glancing on the shore, ten thousand spires flashed the glad illumination and trembled to the rolling organ beneath that sounds forth the Christian's exultation. It is the Lord's day and the annual day of resurrection .-- Henry Ward Beecher.

There are great merits about Easter as an annual feast day. It says to us: "Put on your best clothes, think your best thoughts and be as good and happy as you can. The Lord of Christendom is risen. The spring is coming back. Life begins again in the fields and parks and gardens. Let us be grateful to our Maker for life; let us rejoice in the present all we honestly can and take as hopeful a view of the future as common sense permits."---Edward S. Martin in "Times and Seasons."

VALIANTS OF VIRGINIA SYNOPSIS. CONTROLLE CONTROLLE CA SYNOPSIS. CALLE CONTROLLE CA SYNOPSIS. CALLE CALLE CA SYNOPSIS. CALLE CALLE

CHAPTER Valiant, a rich society favorite, suddemy discovers that the Valiant corporation, which his father founded and which was the principal source of his wealth, has failed.

CHAPTER II—He voluntarily turns over his private fortune to the receiver for the corporation. CHAPTER III—His entire remaining possessions consist of an old motor car, a white bull dog and Damory court, a neglected estate in Virginia.

CHAPTER IV—He learns that this estate came into the family by royal grant and has been in the possession of the Valiants ever since.

CHAPTER V—On the way to Damory court he meets Shirley Dandridge, an auburn-haired beauty, and decides that he is going to like Virginia immensely.

CHAPTER VI—An old negro tells Shir-ley's fortune and predicts great trouble for her on account of a man.

CHAPTER VII-Uncle Jefferson, an old negro, takes Valiant to Damory court.

CHAPTER VIII—Shirley's mother, Mrs. Dandridge, and Major Bristow exchange reminiscences during which it is revealed that the major, Valiant's father, and a man named Sassoon, were rivals for the hand of Mrs. Dandridge in her youth. Sassoon and Valiant fought a duel on her account in which the former was killed.

CHAPTER IX-Valiant finds Damory court overgrown with weeds and creepers and the buildings in a very much neglected condition. Uncle Jefferson and his wife, Aunt Daphne, are engaged as

CHAPTER X-Valiant explores his ancestral home. He is surprised by a fox hunting party which invades his estate. He recognizes Shirley at the head of the

Valiant turned, with a gesture that included all. "If you care to dismount and rest," he said, "I shall be honored, though I'm afraid I can't offer you such hospitality as I should wish."

The judge raised his broad soft hat. "Thank you, sir," he said, with a soft accent that delightfully disdained the letter "r." "But we mustn't intrude any further. As you know, of course, the place has been uninhabited for any number of years, and we had no know that the Court is to be reclaimed, sir. Come along, Chilly," he added. "Our fox has a burrow under

They did not leap the wall this time, but filed decorously through the swinging gate to the Red Road. Then, as they passed from view behind the hedges, John Valiant heard the younger voices break out together like the sound of a bomb thrown into a poultry-yard.

John Valiant stood watching till the last rider was out of sight. There was a warm flush of color in his face. At length he turned with a ghost of a sigh, opened the hall door wide and stalking a hundred yards away, sat down on the shady grass and began to whistle, with his eyes on the

Presently he was rewarded. On a sudden, around the edge of the sill peered a sharp, suspicious little muzzle. Then, like a flash of tawny light, the fox broke sanctuary and shot for the thicket.

The brown ivied house in the village was big and square and faced the sleepy street. A one-storied wing contained a small door with a doctor's brass plate on the clapboarding beside it. Doctor Southall was one of Mrs. Merryweather Mason's paying guests-for she would have deemed the word boarder a gratuitous insult, no less to them than to her. Another was the major, who for a decade had occupied the big old-fashioned corner-room on the second floor, companioned by a monstrous gray cat and waited on by an ancient negro named Jereboam, who had been a slave of

The doctor was a sallow taciturn man with a saturnine face, eyebrows like frosted thistles, a mouth as if made with one quick knife-slash and a head nearly bald, set on a neck that would not have disqualified a year-

On this particular morning neither the major nor the doctor was in evidence, the former having gone out early, and the latter being at the moment in his office, as the brassy buzz of a telephone from time to time announced. Two of the green wicker rocking-chairs on the porch, however, were in agitant commotion. Mrs. Mason was receiving a caller in the per-

son of Mrs. Napoleon Gifford. "After all these years!" the visitor was saying in her customary italics. (The broad "a" which lent a dulcet softness to the speech of her hostess was scorned by Mrs. Poly, her own "a's" being as narrow as the needle through which the rich man reaches heaven.) "We came here from Richmond when I was a bride—that's twenty-one years ago-and Damory Court was forsaken then. And think what a condition the house must be in now! Cared for by an agent who comes every other season from New York. Trust a man to do work like

"I'm glad a Valiant is to occupy it," remarked Mrs. Mason in her sweet flute-like voice. "It would be sad to see any one else there. For after all, it!" the Valiants were gentlemen."

Mrs. Gifford sniffed. "Would you have called Devil-John Valiant a gen- Doctor Southall," she said. "That's tleman? Why, he earned the name by the dreadful things he did. My grandfather used to say that when his side," responded the other with wise lay sick—he hated her, you know guarded grimness, "but if he has, I -he would gallop his horse with all

his hounds full-cry after him under her windows. Then that ghastly story of the slave he pressed to death in the hogshead of tobacco."

"I know," acquiesced Mrs. Mason. "He was a cruel man and wicked, too. Yet of course he was a gentleman. In the South the test of a gentleman has never been what he does, but who he is. But his grandson, Beauty Valiant, who lived at Damory Court thirty years ago, wasn't his type at all. He was only twenty-five when the duel occurred."

"He must have been brilliant," said the visitor, "to have founded that great corporation. It's a pity the son didn't take after him. Have you seen the papers lately? It seems that though he was to blame for the wrecking of the concern they can't do anything to him. Some technicality in the law, I suppose. But if a man is only rich enough they can't convict him of anything. Why he should suddenly make up his mind to come down here I can't see. With that old affair of his father's behind him, I should think he'd prefer Patagonia."

"I take it, then, madam," Doctor Southall's forbidding voice rose from the doorway, "that you are familiar with the circumstances of that old af-

fair, as you term it?" The lady bridled. Her passages at arms with the doctor did not invariably tend to sweeten her disposition. "I'm sure I only know what people say," she said.

"'People?"" snorted the doctor irascibly. "Just another name for a community that's a perfect sink of meanness and malice. If one believed all he heard here he'd quit speaking to his own grandmother."

"You will admit, I suppose," said Mrs. Gifford with some spirit, "that the name Valiant isn't what it used

to be in this neighborhood?" "I will, madam," responded the doctor. "When Valiant left this place (a idea it was to acquire a tenant. You mark of good taste, I've always considwill overlook our riding through, I ered it) he left it the worse, if possihope. I'm afraid the neighborhood ble, for his departure. Your remark, smiles. Was he the only ties, their mutual appreciation was in lips, of a question that had always man who ever happened to be at the lucky end of a dueling-ground?"

"Then it isn't true that Valiant was the house, I reckon—hang the cunning a dead shot and Sassoon intoxicated?" "Madam," said the doctor, "I have no wish to discuss the details of that unhappy incident with you or anybody else. I was one of those present, but the circumstances you mention have

> "I see by the papers," said Mrs. Gifford, with an air of resignedly changing the subject, "they've been investigating the failure of the Valiant Corporation. The son seems to be getting the sharp end of the stick, Perhaps he's coming down here because they've made it so hot for him in New York. Well, I'm afraid he'll find this county disappointing."

"He will that!" agreed the doctor savagely. "No doubt he imagines he's coming to a kindly countryside of gentle-born people with souls and imaginations: he'll find he's lit in a section that's entirely too ready to hack at his father's name and prepared in advance to call him Northern scum and turn up its nose at his accent-a community so full of dyed-in-the-wool snobbery that it would make Boston look like a poor-white barbecue. I'm sorry for him!"

Just then from the rear of the house came a strident voice:

"Yo', Raph'el! Take yo' han's outer dem cherries! Don' yo' know ef yo' swallahs dem ar pits, yo' gwineter hab 'pendegeetus en lump up en die?" The sound of a slap and shrill yelp

followed, and around the porch dashed an infantile darkey, as nude as a black Puck, with his hands full of cherries, who came to a sudden demoralized stop in the embarrassing foreground. "Ralph!" thundered the doctor. "Didn't I tell you to go back to that

"Yes, suh," responded the imp. "But

out of her sphere." Something like a growl came from the doctor as he struck open the screen-door. "'Limb!' I'll bet ten dollars she's an angel in a cedartree at a church fair compared with some better-born young ones I know of who are only fit to live when they've got the scarlet-fever and who ought to be in the reformatory long ago. And as for Shirley Dandridge, it's my opinion she and her mother and a few others like her have got about the only drops of the milk of

"And over a love-affair!" exclaimed Mrs. Gifford in the tone of one to whom romance was daily bread.

"I suppose it was." For a time the conversation languished. Then Mrs. Gifford asked suddenly: "Who do you suppose she could have been?—the girl behind that old Valiant affair."

Mrs. Mason shook her head. "No one knows for certain-unless, of course, the major or the doctor, and I wouldn't question either of them for worlds. You see, people had stopped gossiping about it before I was out of school. There's Major Bristow at the gate now. And the doctor's just coming out again."

The major wore a suit of white linen, with a broad-brimmed straw hat, and a pink was in his buttonhole, but to the observing, his step might have seemed to lack an accustomed jauntiness. As he came up the path the doctor opened his office. "How do you feel this morning, Ma-

He shook his head forebodingly. The major had, indeed, a far-away look as he sat there, a heavy lonely figure, that bright morning. It had slipped to his face with the news of the arrival at Damory Court. He told himself that he felt queer.

Suddenly he seemed to hear elfin voices close to his ear: Which was it she loved? Valiant

It was so distinct that he started, rexed and disturbed. Really, it was absurd. He would be seeing things next! "Southall may be right about that exercise," he muttered; "I'll walk more." CONCERNING EASTER EGGS.

What They Symbolize In Various Countries-Blessed In Italy. There are many superstitions in connection with Easter, and each country has a custom of celebrating it peculiar to itself; but, while each varies, they all unite to observe the spirit of springtime, and all Christians rejoice that the Lord of life forever won victory over death. Among the many quaint superstitions is the old Aryan one which typifies the return of the sun of springtime by a golden egg-eggs being distributed at the early equinox by priests to strengthen the hopes of

With the Jews, says the Delineator, the egg became a type of their rescue from the land of bondage, and in their feast of the passover eggs occupied a conspicuous place in the services. It was their connection with the latter that finally caused them to be used by Christians the world over in celebrating Easter-the egg of resurrection into a new life-bringing a message of

life from death, as it were. The Tyrolese Easter eggs are similar to our valentines, for, besides being most beautifully tinted, they have in unique lettering mottoes representing appropriate wishes for the recipients. The priests of Italy bless all eggs brought to service on Easter morning.

PASSOVER AND EASTER.

Why It is That They Do Not Always

Correspond. Since the events of holy week and the resurrection took place during the Jewish passover it seems strange that the celebration in the synagogues and in Christian churches should not always be at the same time. Some years the times coincide, but they are often a week apart. The explanation is that the Jewish calendar, which dates from the creation of the world, is regulated on the lunar month, which is often nearly two days shorter than the month of the Christian calendar. Corrections are made, but instead of a day such as is added in leap year a month is added, so that some Jewish years consist of thirteen months. As Easter always falls on the first Sunday following the full moon next after March 21, this additional month in certain years causes a variation between the passover and the Christian

CHAPTER II-He voluntarily turns over his private fortune to the receiver

CHAPTER IV—He learns that this estate came into the family by royal grant and has been in the possession of the Valiants ever since.

CHAPTER V-On the way to Damory court he meets Shirley Dandridge, an auburn-haired beauty, and decides that he is going to like Virginia immensely.

CHAPTER VI—An old negro tells Shir-ley's fortune and predicts great trouble for her on account of a man. CHAPTER VII—Uncle Jefferson, an old negro, takes Valiant to Damory court.

CHAPTER VIII—Shirley's mother, Mrs. Dandridge, and Major Bristow exchange reminiscences during which it is revealed that the major, Valiant's father, and a man named Sassoon, were rivals for the hand of Mrs. Dandridge in her youth. Sassoon and Valiant fought a duel on her account in which the former was killed.

CHAPTER IX-Valiant finds Damory court overgrown with weeds and creepers and the buildings in a very much neglected condition. Uncle Jefferson and his wife, Aunt Daphne, are engaged as servants.

CHAPTER X-Valiant explores his ancestral home. He is surprised by a fox hunting party which invades his estate. He recognizes Shirley at the head of the

Valiant turned, with a gesture that included all. "If you care to dismount and rest," he said, "I shall be honored, though I'm afraid I can't offer you such hospitality as I should wish."

The judge raised his broad soft hat. "Thank you, sir," he said, with a soft accent that delightfully disdained the letter "r." "But we mustn't intrude any further. As you know, of course, the place has been uninhabited for any number of years, and we had no know that the Court is to be remain who ever happened to be at the inverse ratio to its expression, and, haunted him. He waved his hat at the porch and turned his horse down the path, side by side with the golden chestnut. After them trooped the others, horses walking wearily, riders talking in low voices, the girls turning often to send swift bird-like glances behind them to where the straight masculine figure still stood with the vellow sunshine on his face. They did not leap the wall this time, but filed decorously through the swinging gate to the Red Road. Then, as they passed from view behind the hedges, John Valiant heard the younger voices break out together like the sound of a bomb thrown into a poultry-yard.

John Valiant stood watching till the last rider was out of sight. There was a warm flush of color in his face. At length he turned with a ghost of a sigh, opened the hall door wide and stalking a hundred yards away,

sat down on the shady grass and began to whistle, with his eyes on the

Presently he was rewarded. On a sudden, around the edge of the sill peered a sharp, suspicious little muzzle. Then, like a flash of tawny light, the fox broke sanctuary and shot for the thicket.

The brown ivied house in the village was big and square and faced the sleepy street. A one-storied wing contained a small door with a doctor's brass plate on the clapboarding beside it. Doctor Southall was one of Mrs. Merryweather Mason's paying guests-for she would have deemed the word boarder a gratuitous insult, no less to them than to her. Another was the major, who for a decade had occupied the big old-fashioned corner-room on the second floor, companioned by a monstrous gray cat and waited on by an ancient negro named Jereboam, who had been a slave of

On this particular morning neither the major nor the doctor was in evidence, the former having gone out early, and the latter being at the moment in his office, as the brassy buzz of a telephone from time to time announced. Two of the green wicker rocking-chairs on the porch, however, were in agitant commotion. Mrs. Mason was receiving a caller in the person of Mrs. Napoleon Gifford.

"After all these years!" the visitor was saying in her customary italics. (The broad "a" which lent a dulcet softness to the speech of her hostess was scorned by Mrs. Poly, her own "a's" being as narrow as the needle through which the rich man reaches heaven.) "We came here from Richmond when I was a bride—that's twenty-one years ago-and Damory Court was forsaken then. And think what a condition the house must be in now! Cared for by an agent who comes every other season from New York. Trust a man to do work like

"You will admit, I suppose," said Mrs. Gifford with some spirit, "that the name Valiant isn't what it used to be in this neighborhood?"

"I will, madam," responded the doctor. "When Valiant left this place (a idea it was to acquire a tenant. "I see by the papers," said Mrs. Gifford, with an air of resignedly changing the subject, "they've been investigating the failure of the Valiant Corporation. The son seems to be getting the sharp end of the stick. Perhaps he's coming down here because they've made it so hot for him in New York. Well, I'm afraid he'll find this county disappointing."

"He will that!" agreed the doctor savagely. "No doubt he imagines he's coming to a kindly countryside of gentle-born people with souls and imaginations: he'll find he's lit in a section that's entirely too ready to hack at his father's name and prepared in advance to call him Northern scum and turn up its nose at his accent-a community so full of dyed-in-the-wool snobbery that it would make Boston look like a poor-white barbecue. Something like a growl came from the doctor as he struck open the screen-door. "'Limb!' Mrs. Mason shook her head. "No one knows for certain-unless, of course, the major or the doctor, and I wouldn't question either of them for worlds. You see, people had stopped gossiping about it before I was out of school. There's Major Bristow at the gate now. And the doctor's just coming out again."

What They Symbolize In Various Countries-Blessed In Italy.

There are many superstitions in connection with Easter, and each country has a custom of celebrating it peculiar to itself; but, while each varies, they all unite to observe the spirit of springtime, and all Christians rejoice that the Lord of life forever won victory over death. 'Among the many quaint superstitions is the old Aryan one which typifies the return of the sun of springtime by a golden egg-eggs being distributed at the early equinox by priests to strengthen the hopes of the people that the bleak, cold days of winter might soon cease and a brighter time ensue.

The Persians believed that the earth was hatched from an immense egg on Easter morning. The Aryans also believed the sun to be a large golden egg which was constantly rolling near-

er to the earth. With the Jews, says the Delineator. the egg became a type of their rescue from the land of bondage, and in their feast of the passover eggs occupied a conspicuous place in the services. It was their connection with the latter that finally caused them to be used by Christians the world over in celebrating Easter-the egg of resurrection into a new life-bringing a message of

life from death, as it were. The Tyrolese Easter eggs are similar to our valentines, for, besides being most beautifully tinted, they have in unique lettering mottoes representing courts of justice were closed and slaves appropriate wishes for the recipients.

The priests of Italy bless all eggs brought to service on Easter morning. F. J. YEACER and each person carries his back home, where they are placed on a kind of altar arranged for the purpose, surrounded by lighted candles and often flowers. Then the members of the family and any guests abiding with them eat these holy eggs as a safeguard against disease and danger. They are hard boiled before they are taken to the church.

PASSOVER AND EASTER.

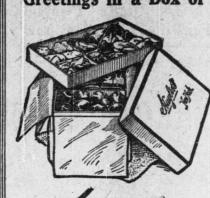

Why It Is That They Do Not Always

Correspond. Since the events of holy week and the resurrection took place during the Jewish passover it seems strange that the celebration in the synagogues and in Christian churches should not always be at the same time. Some years the times coincide, but they are often a week apart. The explanation is that the Jewish calendar, which dates from the creation of the world, is regulated by the rabbis. Their system is based on the lunar month, which is often nearly two days shorter than the month of the Christian calendar. Corrections are made, but instead of a day such as is added in leap year a month is added, so that some Jewish years consist of thirteen months. As Easter always falls on the first Sunday following the full moon next after March 21, this additional month in certain years causes a variation between the passover and the Christian
